

Don't We All Want to Age Well?

The Northeastern Illinois Agency on Aging is one of over 600 such agencies throughout the United States, created by Congress to implement the Older Americans Act and coordinate a wide variety of services for persons 60 and older. The Agency on Aging awards funds to local organizations in each county within our designated area to provide these important services and monitors the organizations to ensure accountability and quality.

We strive to make aging easier through the development and promotion of a network of services for older persons designed to optimize the quality of their lives.
